### **1. Announcement**

The 'Classic Racing Motorcycle Club Limited' will organise European Open status Road Race meetings at the above venues in 2026. The meetings will be held under the National Sporting Code of the Auto-Cycle Union (ACU), Standing Regulations for Road Racing and these Supplementary Regulations, together with any Final Instructions subsequently issued or Official Announcements made.

### **2. Officials**

Clerk of the Course: From Benjamin Robinson (152026), Phil Southern (79217) and Peter Batten-Wright (134784)

Incident Officer: From Megan Ireland (211713) and Fraser Greenroyd (139192)

Chief Steward: Joy Gill (104217)

Chief Technical Officer: Keith Miller (147223)

Chief Timekeeper: Chris Barfe

Secretary of the Meeting and Safeguarding Officer: Anji Yardley, Hawthorn Cottage, Haltham, Lincs, LN9 6JQ

### **3. Eligibility.**

**3a. Rider Eligibility** - Open to riders, drivers and passengers who hold a valid current competition licence for Road Race issued by the ACU, SACU or other FIM Europe affiliated Federation. All licences must be shown when signing on. All riders not holding licences issued by the ACU or SACU must carry proof of insurance and a written Start Permission document issued by their FMN and produce them when signing on.

All riders, drivers and passengers must be current members of the CRMC Limited. Riders and Passengers under 18 years of age must also complete a "Parental Agreement" form in addition to the entry form to permit them to compete. Their Parent or Legal Guardian must attend signing on with them and must be available for the duration of the meeting. Parental agreement forms are available from either the ACU or CRMC.

**3b. Motorcycle Eligibility:** Motorcycles and Sidecars must be CRMC registered, or eligible for the race they enter as applicable.

**Events 11a, 11b, 11c, 11d:** Motorcycles must be registered with the Lansdowne Classic Series

### **4. Entries**

**4a.** Entries close as specified in the table at the start of these supplementary regulations.

At the entry secretary's discretion, and grid space permitting, late entries may be accepted up to the Monday prior to the event.

**4b.** Entries are to be made online via the CRMC website <https://www.crmc.co.uk/entries/>

**4c.** A non-returnable deposit of £30 will be collected when an entry is made. The balance to be collected approximately 8 days prior to the meeting.

**4d.** Entry fees: Details are to be found on the online entry form.

**4e.** The organisers undertake to insure each driver and passenger, indemnifying him/her against any third-party claims made arising out of the races or the official practice, excluding claims by other drivers, passengers, entrant, sponsor, or mechanic.

**4f.** Refunds: Entries may be cancelled and a credit issued, less the deposit, provided notification is received on or before the Monday prior to the Race Meeting.

## **5. Limitations**

Below are the maximum number of machines permitted on circuit in any one session:

## **9. Technical Inspection**

10i All race machines must be prepared in accordance with the appropriate ACU Standing Regulations, the National Sporting Code requirements for Road Racing, and these Supplementary Regulations.

10ii. Machines must be presented to the Technical Officials at the times stated in the Final Instructions in a race/practice ready condition displaying the numbers allocated for the meeting in the ACU Handbook style and size.

A machine eligibility check will be made during Technical Control.

Please bring the machine eligibility card for inspection and the Technical Control/practice pass for signature.

Riders must present themselves to the Technical Official wearing their protective clothing, boots, and identification disc. They must also bring helmet(s), visors, and gloves for checking by the Technical Official. Riders must use a helmet bearing the current ACU Gold Stamp. A rider or passenger from another country holding a licence endorsed by his/her FMN and carrying proof of insurance issued by his/her FMN, may wear a helmet without an ACU Approval Stamp but complying with FIM Art. 01.67 (displaying a recognised International Helmet Standard).

10iii. Re-inspection following an accident: It is the rider's responsibility to ensure that following an accident:

- i. His/her machine, helmet and clothing are re-presented to, and approved by, Technical Control before further use at the meeting.
- ii. He/she is passed fit by the Medical Officer before taking any further part in the meeting and the associated written confirmation is presented to Race Control before resuming racing.

10iv. CRMC Technical Requirements: In addition to the requirements of the ACU Standing Regulations and National Sporting Code, the following requirements are applicable to all machines at CRMC run events.

- Safety locking wire shall be annealed stainless steel of between 0.7mm and 1.0mm in diameter. Copper wire shall NOT be used for safety wiring.
- Spin-off type oil filters must be jubilee clipped and wire locked to prevent unscrewing.
- Plastic pipe, braided or otherwise, shall NOT be used for flow-carrying oil lines. It is permitted for breather pipes. All pipe terminations on positive-pressure oil flow lines must use threaded/swaged fittings or high-quality jubilee clips.
- Standing regulation Section 5.18 "All drain plugs must be tight and drilled and wired into position." shall include fork and suspension unit drain plugs, where practicable.
- Filler caps and filter covers shall be drilled and lock-wired on crankcases, gearboxes, and final drive units where practicable.
- Exhaust retaining springs must be 'parallel-wired' to ensure the security of the system and components in the event of a spring failure. This requirement does not apply to springs retaining exhausts to the cylinder head or barrel, or springs that in the case of a breakage would be contained within the fairing belly pan.
- In addition to the exhaust connection at the cylinder head or exhaust port, there shall be at least two points of retention for each pipe/silencer assembly. This may be accomplished by using a safety strap wire loop in addition to a single main mounting.
- The exhaust must not extend beyond more than 50mm beyond a line drawn at a vertical tangent to the rear edge of the motorcycle rear tyre.
- All machines must meet the oil containment requirements in the Road Racing Section 15.9 of the ACU handbook.
- Tyre inflation valve caps must be of metal construction.
- All Monza type fuel caps must be made leak proof and fitted with a secondary means of securing shut. (e.g. an R Clip or lock wire) Ensuring the cap is leak proof can be achieved by soldering the hole up in the brass plate under the cap. A separate breather should be fitted with a non-return valve to allow air into the tank. A flexible pipe formed with two loops in it and visibly terminating in a 250ml bottle will also suffice.
- If a machine is entered in two classes that have differing number board colours, then the machine should adopt the colour of the main class for the duration of the meeting.
- Machines in solo classes 8a, 8k, 8m, 8n, 8p, 8t, 8q, 8r, 8s, 10b, 12a & 12b. must be fitted with rain lights.

## **10. Noise Testing**

All machines will be subject to the ACU Static Noise test conducted as per the ACU library except that the meter reading will not be rounded down and there will be no deduction 2db for the meter. Full details of the static noise test can be found in the ACU library.

## **11. Practice & Grid Positions**

Timed Practice will determine grid positions for Race 1; subsequent grids will be based on fastest laps from the previous race. Novice licence holders and riders competing at the circuit for the first time must complete 3 laps of practice or gain permission to start from the Clerk of the Course.

## **12. Method of start**

All races will be started by lights with engines running. (Clutch start). The safety car will not be used, nor will the blue (overtaking) flag.

### **12a Flagging – Double Waved Yellows**

Double waved yellows will be shown to riders if there is a rider or machine on the tarmac within the white lines of the circuit. The double waved yellows will be preceded by a single waved yellow flag at the marshal post before the double waved yellows, and a stationary yellow flag at the marshal post before that.

### **13. Finish of Races**

To be classified as a finisher and included in the results a rider must have completed 75% of the actual race distance. He must also have crossed the finish line, in contact with his machine, on the track and not in the Pit Lane, within three minutes after the winner.

### **14. Tyres**

Slick Tyres are only permitted in 12a, 12b and 10c, and in support series as per their regulations.

Tyre Warmers are permitted for machines in classes 8a, 8k, 8m, 8n, 8p, 8t, 8q, 8r, 8s, 10b, 10c, 12a and 12b. Wet tyres are also permitted in these classes, and all machines must be fitted with a rain light.

### **15. Fuel**

It is permitted to use fuel up to 105 RON, 95 MON octane & 2.7% oxygen provided the fuel meets all other ACU specifications. Methanol is only permitted for use in pre 1939 BHR machines. The use of E85 Bio-fuel is not permitted.

### **16. Admission**

Each solo rider and sidecar driver will receive 3 passes. Sidecar passengers will receive 2 passes. Licensed entrants will receive 1 pass.
